

Junior Cloud Infrastructure Engineer

P.visal6927@gmail.com |

GitHub | LinkedIn | Telegram |

PROFESSIONAL SUMMARY

An AUPP student pursuing a **cloud infrastructure** major, with practical experience in **administration Linux Server**, **AWS** cloud management and solution architecture, as well as basic network configuration. Familiar with **virtualization**, server automation, and diagnosing TCP/IP issues. Ready to contribute to a dynamic cloud engineering team.

WORK EXPERIENCE

Food Tour Guide

Urban Forage | 2023 – present

Led cultural food tours for international guests, providing English narratives on Khmer cuisine and strengthening cross-cultural communication and public speaking skills.

English Tutor

Phum Yerng Education Center | 2022 – 2023

Tutored 30 young high school learners, adapting explanations of fundamental grammar concepts and speaking practices.

Technical Support & Event Coordination

Preah Mlou High School | 2021 – 2022

Provided hands-on technical assistance for school events (projector setup, network cabling, troubleshooting connectivity).

EDUCATION

B.S. in Digital Infrastructure (Cloud Infrastructure Major)

American University of Phnom Penh (AUPP) | Expected early 2027

Relevant Coursework: Cloud Architecture, Linux Administration, Networking, and Cybersecurity.

TECHNICAL SKILLS

- **CI/CD & DevOps Automation:** Developed automated delivery pipelines utilizing **Jenkins** and **GitHub Actions**; integrated **SonarQube** and **Trivy** security scanning, Docker image orchestration, and secure **Terraform** provisioning on AWS.
- **Virtualization & VM Management:** Deployed and maintained **CentOS 9**, **Ubuntu**, and **Windows** instances via VMware and VirtualBox. Managed snapshots and checkpoints to ensure rapid recovery and minimize data loss during testing phases.
- **Networking Foundations:** Configured and diagnosed **TCP/IP**, **DNS (BIND)**, and **DHCP** in lab settings. Proficient in **SSH hardening**, Cisco IOS routing/switching, VLAN configuration, trunking, and basic ACL implementations.
- **Server Administration:** Administered user lifecycle management and access controls. Optimized security and performance by monitoring system logs, disabling redundant services, and leveraging **Bash** and **Python** for task automation. Familiar with **Windows Server** Group Policy.
- **Programming & Tooling:** Proficient in **Python**, **JavaScript**, and **Shell scripting**. Experienced with Git, Docker, Kubernetes, and database management using **DynamoDB** and **MySQL**.
- **Interpersonal & Language:** Exceptional communication and adaptation skills. Proficiency in **Google Workspace**, **Microsoft Office**, and basic **Power BI**. Fully bilingual in English and Khmer with strong professional writing and speaking capabilities.

IT & CLOUD INFRASTRUCTURE PROJECTS

AWS EC2 Provisioning + Hardening (Lab)

- Provisioned Linux EC2 instances using least-privilege IAM, security groups, and key-based SSH access.
- Hardened the server (disabled password login, restricted SSH, configured firewall rules, and enforced file permissions).
- Implemented user/group management and basic operational tasks (service management, log review, patching).

CI/CD Pipeline for Containerised Web Application on AWS | GitHub Project

- **Automated DevSecOps:** Jenkins pipeline triggered on main pushes, integrating **SonarQube** quality gates and **Trivy** security scans for source and images.
- **Secure IaC:** **Terraform** provisions least-privilege EC2s with remote state management and locking via **AWS S3** and **DynamoDB**.
- **Dockerized Deployment:** Automates **DockerHub** push and multi-node deployment with verified **SSH readiness** and **HTTP health checks**.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Online Certifications

- **AWS Course Certificates:** Cloud Foundations | Cloud Architecting | Academy Cloud Operations | AWS Cloud Native
- **Coursera:** Introduction to DevOps | Continuous Integration and Continuous Delivery (CI/CD)
- **Netacad Cisco:** Network Essentials

Industry Workshops

- **IT Career Development (One Fraternity, 2024):** Gained insights from senior tech professionals on career paths in cloud and infrastructure.
- **Partner2Connect National Roundtable (ITU & MPTC, July 2024):** Explored digital collaboration strategies globally and Cambodia's connectivity roadmap alongside regulators and telecom experts.
- **UnipreneurCamp 2 (October, 2025):** Collaborated within a 6-member team to design and execute an innovative project, competing against various universities in Phnom Penh. This provided invaluable exposure to real-world enterprise projects and facilitated professional networking.
